

„INZEA“ – the sustainable choice: biobased and biodegradable compounds

Speaker: Carlos Gil
Commercial Director
Nurel S.A.

Presentation: Tuesday, 19 June 2018, 10.15

Abstract: To reduce, reuse or recycle plastics is not always possible in our modern society. But there are alternatives. So it is possible to replicate the most favourable, desired characteristics of plastics with sustainable products. The presentation shows the possibilities of it at the example of INZEA biopolymer of Nurel.
